TIVAR® POLYSTEEL

Engineering Innovative Solutions for Bulk Material Handling

Product Profile:

- Reduces or eliminates plastic contamination in paper mill woodyards
- High specific gravity
- Excellent impact strength
- Low coefficient of friction
- Abrasion- and corrosion-resistant

TIVAR® PolySteel has been specially formulated to create a magnetically detectable polymer material that can be separated from wood pulp in solution.

TIVAR® PolySteel is black in color and available in 48" x 120" sheets with five gauge sizes ranging from 3/8" to 1".

Industries	Applications
Forest Products Paper mills	Chip sizing screens Flat back elbow liners Jackladder liners Under chain wear plates Wood chip drag conveyor flights
